

Eddie Valdez

hello@eddievaldez.ai | eddievaldez.ai

AI product builder and leader. 8+ years shipping production systems across web, iOS, and Android. Currently at One Legal; solo studio with 10 products live.

AI Products

Barael, AI Product Studio, Founder & Builder

2025 - Present

- Built 10 production AI products solo, no contractors, shipped end to end using Claude, Gemini, and agent orchestration frameworks
- Reqall (reqall.app): multimodal capture-to-task pipeline; voice, image, and text into structured tasks and decisions via Claude vision, Whisper transcription, and pgvector RAG
- SpeakEasyPrep (speakeasyprep.ai): multi-model interview prep platform; resume and JD into 8 framework-structured answers via a 4-wave parallel pipeline (Claude and Gemini), cutting wall time from ~5 min to ~90 sec; live Stripe billing
- Stack: Claude, Gemini, Whisper, Next.js, Supabase, pgvector, Capacitor, Stripe, RevenueCat, Vercel

Experience

One Legal, Product Manager, AI User Experience

July 2025 - Present

- Own product vision and roadmap for AI-native court filing platform
- Shipped multi-agent legal assistant and document pipeline using conversational AI, OCR, and orchestration to automate operations and resolve tickets
- Defined AI PRDs and eval frameworks covering task completion, safety, and factuality; built LLM-as-a-Judge pipelines and human-in-loop validation to set alpha/beta/GA launch criteria

Walmart Marketplace, Senior Product Manager

2023 - 2025

- Shipped a seller recommendation engine translating content signals into actions; +12% engagement, 23% same-session adoption
- Scaled from 1,000-seller pilot to full marketplace rollout
- Launched an AI content quality engine surfacing optimization opportunities to improve conversion and seller trust

eBay, Senior Product Manager

Jan 2023 - Oct 2023

- Shipped comparison and recommendation modules using collaborative filtering and ranking optimization; improved mobile discovery and conversion
- Led A/B testing roadmap with data science and engineering to optimize personalization ranking

Pod Foods, Growth Product Manager

2021 - 2023

- Launched Pod Capital, an embedded fintech platform for partner brands; improved dashboard and workflow tools to cut manual work from operations and increase retention

Albertsons, Mobile Product Manager

2020 - 2021

- Led onboarding within Albertsons' Deals and Delivery app; drove 40–50% of 45.6M loyalty members to activate in app

Beans.ai, Founding Product Manager

2018 - 2020

- Built apartment building mapping and delivery routing platform; awarded US patent for graphical map display
